WORK EXPERIENCE

AUDREY SIGNS, Graphic Designer
May 2024 - July 2024

- Utilize **CorelDRAW** to create detailed signage submittals that integrate with architectural blueprints, ensuring project cohesion.
- Maximize **Adobe Illustrator and Photoshop** skills to develop visually compelling graphics with technical precision.
- Design both 2D and 3D artwork, transforming concepts into visuals that exceed client expectations.
- Collaborate with project managers and installation teams to align designs with structural and logistical needs.
- Lead design ideation sessions, using industry insights and client feedback to inspire innovation and refine strategies.
- **Maintain brand consistency and visual integrity** across various signage applications.
- Develop visual mockups and prototypes for brand concepts and packaging, refining designs based on client feedback.

NEXSTAR MEDIA GROUP (NewsNation Division), Graphic Operator
March 2023 - February 2024

- **Built and launched live national broadcasts**, including shows like Cuomo, Dan Abrams Live, and Elizabeth Vargas Reports.
- Managed all live graphics for broadcasts using **Xpression** and other software, ensuring seamless visual production.
- Collaborated with high-value teams to meet all visual production and graphic design needs in a fast-paced environment.
- Produced high-quality graphics for live productions, demonstrating strong attention to detail and efficiency under pressure.
- Possess extensive troubleshooting skills with software (**Optic, Corrio, ENPS, OBS, VNS IP servers, Adobe Suite**) and hardware (**SMPTE ST 2110, RTS intercoms, digital audio**).
- Created and regulated high-quality graphics, photographs, and designs using 2D and 3D illustration skills for various shows and projects through **Adobe suite**.

NEXSTAR MEDIA GROUP (NewsNation Division), Technical Assitant
June 2022 - March 2023

- Executed a wide range of technological production and operational tasks across multiple projects and live shows.
- Supported diverse teams by troubleshooting and resolving technical issues in high-pressure, multitasking environments.
- Possess extensive knowledge in **transmission, communications, video editing, teleprompting, camera control, lighting, and audio production**.
- Performed daily maintenance, quality control checks, troubleshooting, and repairs of broadcast and production equipment.
- Operated production equipment, including **multichannel streaming switch controls, lighting, streaming control panels, IFB devices, and earpiece amplifiers**.
- Managed time-sensitive operations through effective communication with Production Directors, Project Managers, Engineers, IT, and technicians.
- Provided technical support to high-value external partners and clients, enhancing company relationships and ensuring ongoing collaboration.

Freelance, Graphic Designer
August 2020 - Present

- **Developed branding and visual identity packages** for clients, ensuring consistency and enhancing brand recognition across digital and print platforms.
- Created high-quality marketing materials, including **posters, brochures, and social media graphics, boosting client visibility and engagement**.
- Collaborated with clients to provide customized design solutions, consistently exceeding expectations and achieving business goals.
- Utilized **Adobe Creative Suite** for professional, polished visual content, maintaining high standards of creativity and technical precision.
- Managed multiple design projects simultaneously, meeting tight deadlines while ensuring high-quality deliverables.
- Conducted design research to stay updated on industry trends, delivering innovative and relevant designs.
- Maintained clear communication and provided regular updates to clients, **fostering strong relationships and repeat business**.
